To whom it may concern

Makani is the official Geo-Addressing System in the Emirate of Dubai endorsed by His Highness Sheikh Hamdan Bin Mohammed Bin Rashid Al Maktoum, Crown Prince of Dubai on March 31, 2015. "Makani" consists of 10 digit numbers only called "Makani Number". This addressing uniquely identifies each entrance of all existing buildings with a precision level of 1 square meter. The value of Makani Number can be converted to be used in any navigational device in the world. Subsequently, Makani has now become part of the addressing system in Dubai and all companies in Dubai are expected to support and use this system in order to enable all residents and tourists and businesses to reach locations easily using these 10 digit numbers only.

Dubai Municipality is currently fixing Makani plates all over Dubai. More than 40000 plates have already been fixed on buildings.

Dubai Municipality is working on a big awareness campaign with government, semi-government and private sector in order to spread awareness among all residents and entities.

Informap Production L.L.C. is one of these companies Geographic Information Systems Department in Dubai Municipality is working with to spread Makani awareness among private sector companies, focusing on those who deliver items/services to clients like restaurants, shipping companies, and others who make delivery to their client's premises.

In this regard we are requesting everyone to fully cooperate with Informap and give all the needed support in order to make this initiative a success and make everyone benefit from it and use it in their daily life and make their life easy.

Best Regards,

AbdulHakim AlMalik

Director of GIS Department

Dubai Municipality

رؤيتنا: بناء مدينة متميزة تتوفر فيها استدامة رفاهية العيش ومقومات النجاح.

Our Vision : Creating an Excellent City that Provides the Essence of Success and Comfort of Sustainable Living
